

Sima Combined Electric Benders & Cutters

Sima- COMBI Range, Combined electric benders and cutters

Complete Package:

The COMBI range is an ideal solution for small to medium rebar contractors and manufacturers, providing full working autonomy in any rebar work, and at a very low cost. One machine, a single investment to do all rebar jobs with a medium production: bending, cutting, stirrups and spirals / hoops.

The most complete package:

- Safety shield with limit switch on shear body and bending table.
- Easy low-cost maintenance can be even performed on site by the machine operator.

Model	COMBI 30-36	COMBI 36-52
Motor Voltage (V)- 3 Phase	400	400
Frequency (Hz) / In (pins)	50/5P	50/5P
Kw	3	3
Cycles/minutes (bend/return)	10	6
Oil Capacity (L)	10	15
Net Weight (Kg)	435	721
Packaging Dimensions LxWxH (mm)	950x1080x1050	1080x1290x1190

Cutting / Bending Capacity						
	Cutter			Bender		
Tensile Strength	N/500 mm2					
No. x 	1	2	3	1	2	3
COMBI 30/36	Ø25	Ø16	Ø12	Ø32	Ø22	Ø16
COMBI 36/52	Ø32	Ø18	Ø16	Ø42	Ø32	Ø25

4-IN-1 MACHINE:

Cutting, thanks to its shear jaw simultaneously operated with the bending plate.

Bending, operated as our DEL range rebar benders

Stirrups production using the optional stirrups accessory

Production of **spirals**, rings and arches using the optional Spirals Bending accessory
