POWERATTACK

The PowerAttack is an innovative way to move loads on skates or trolleys up to 30 tons instead of forklifts!

Small, Compact, Powerful!

PA25C

Corded

Powered by an electric cable with 230 V or 110V drive motor available

PA30CC

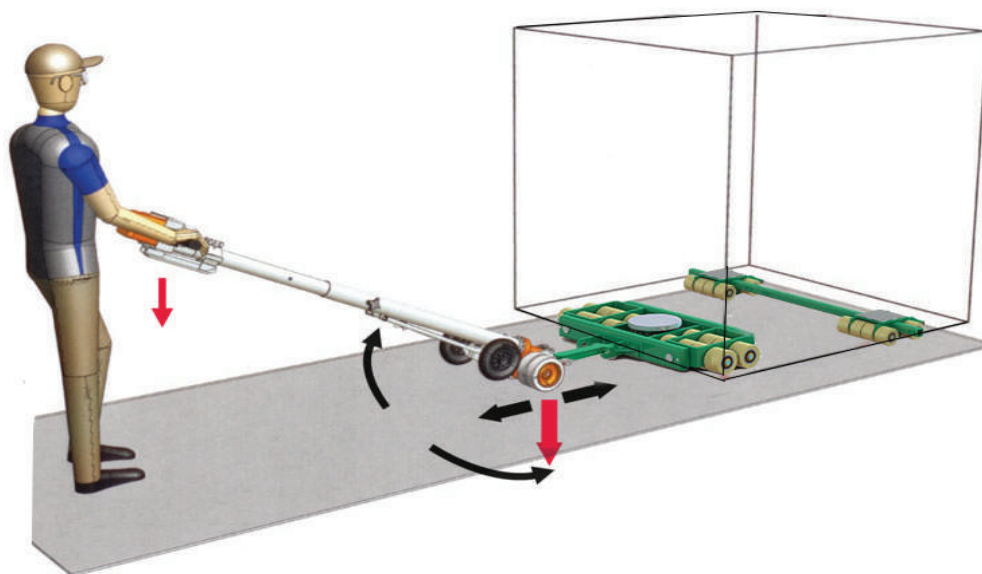

Battery Powered

Powered by a 24V synchronous motor with 1kw output, generating 800Nm to drive-wheels

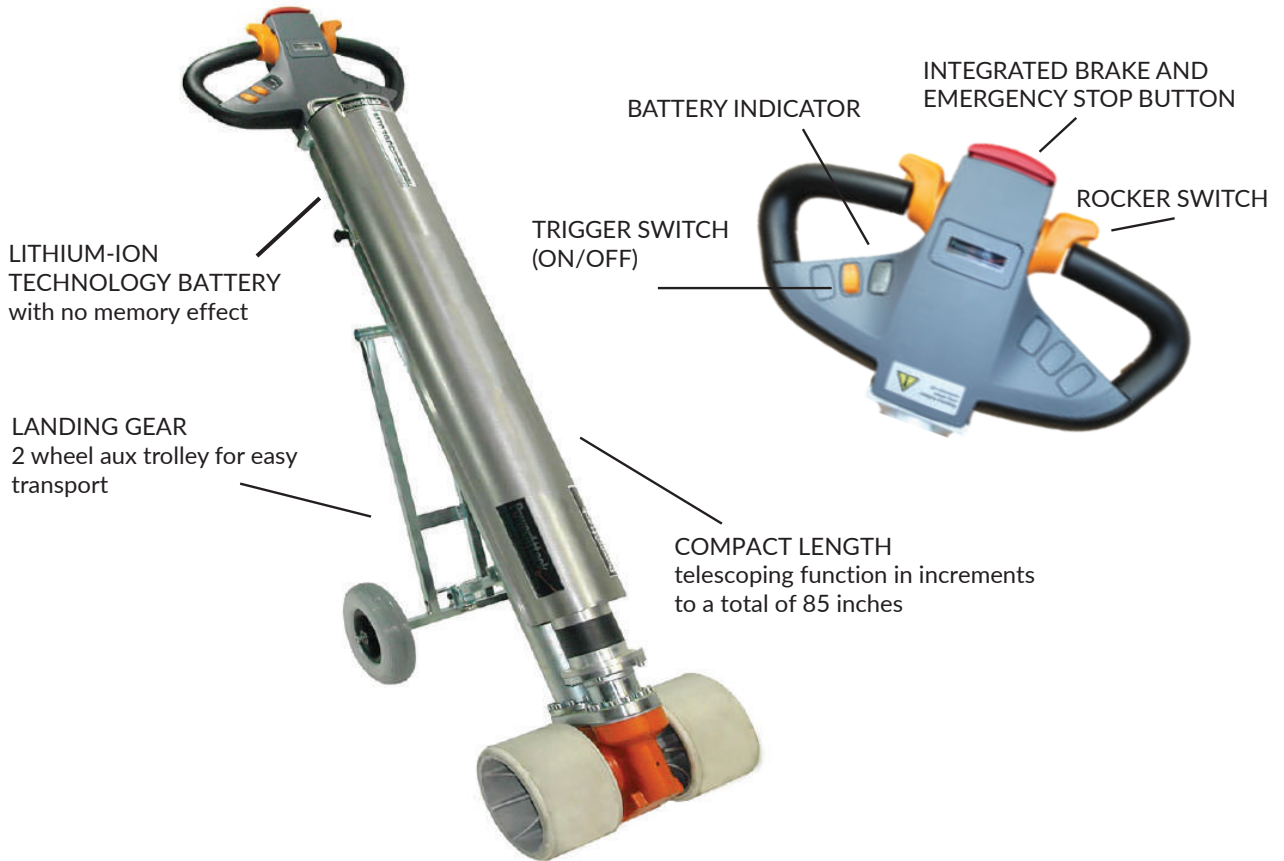

APPLIED MECHANICS

The PowerAttack uses "lever" and "traction" to move heavy loads while it is attached to a steerable skate such as the Hilman Tri-Glide with an adaptor. Rear dollies are used for good grip. The length of the device increases pressure on them, resulting in towing or pushing loads up to 30 tons depending on load type.

ADVANTAGES

Each Powerattack comes with an adjustable load toe, an L Adaptor and an adaptor to connect to a front skate. The battery version also includes 1 battery and charge unit.

LITHIUM-ION TECHNOLOGY BATTERY with no memory effect

LANDING GEAR 2 wheel aux trolley for easy transport

BATTERY INDICATOR

INTEGRATED BRAKE AND EMERGENCY STOP BUTTON

TRIGGER SWITCH (ON/OFF)

ROCKER SWITCH

COMPACT LENGTH telescoping function in increments to a total of 85 inches

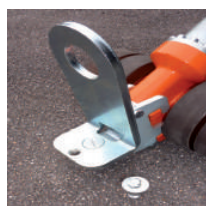

HILMAN POWERATTAC

ADJUSTABLE LOAD TOE to have convenient working height for operator

L ADAPTOR for when the height of the object to push is higher

SMOOTH VARIABLE SPEED CONTROL (0-5m/in and 0-20m/min)

FORWARD-REVERSE SWITCH

Hilman Part #	PA-25C	PA-30CC
Total Capacity	25 tons	30 tons
Telescopic Length	65" (1650 mm) - 84" (2150 mm)	65" (1650 mm) - 84" (2150 mm)
Width	15" (380 mm)	15" (380 mm)
Weight	110 lbs (50 kg)	165 lbs (75 kg)

*Loads can be moved up to 30 tons depending on floor surface, types of skates, etc.

POWERED LOAD MOVER

CLEAN ROOM MOVING

The Battery PowerAttack is a great option for clean room moving or in spaces where emissions is an issue. The soft polyurethane wheels are non-marking and prevent damage to floors.

UNIVERSAL MACHINERY MOVING KIT

This versatile and easy to use 3 point moving system is designed to meet the majority of your load moving requirements and includes everything you need to move loads easily, effectively and safely.

- Jacking package allows easy lifting of load
- Three-point machine skates provide a stable rolling platform
- Powered load mover makes it easy to move your load into its new position with the push of a button
- Poly wheels offer durability and floor protection
