HOME OF TORQUE POWER

**alkitronic® 20350F Maintenance Unit**

Alkitronic® pneumatic torque wrenches have adjustable torque which can be controlled by varying the input air pressure to the tool. The more accurately the air pressure is controlled the more accurate the tool output torque.

20350F Maintenance Unit is supplied with a metal stand, high quality Rexroth Filter Regulator-lubricator, 5 metre long air hose for connection between maintenance unit and tool via Cejn quick disconnect airline couplings. Filled with special oil and gauge shows PSI and bar.

Pressure control valve      Button for filling the oiler by suction on the lower part of the container

Connection for oil extraction and filling

**Art. No. 20350 - Maintenance unit complete including 5 m hose, bracket and special oil**
