

## RAIL GAUGES (MADE IN CANADA)

### UNI-GAGE - MODEL NO. 446401AUS

The IPS Uni-Gage is a precision measuring instrument that has been designed and calibrated to accurately measure rail wear on a wide range of rail profiles. Manufactured from high grade aluminum and stainless steel, the Uni-Gage is suitable for 41, 47, 50, 53, 60 and 68kg rail sections in the one gauge.

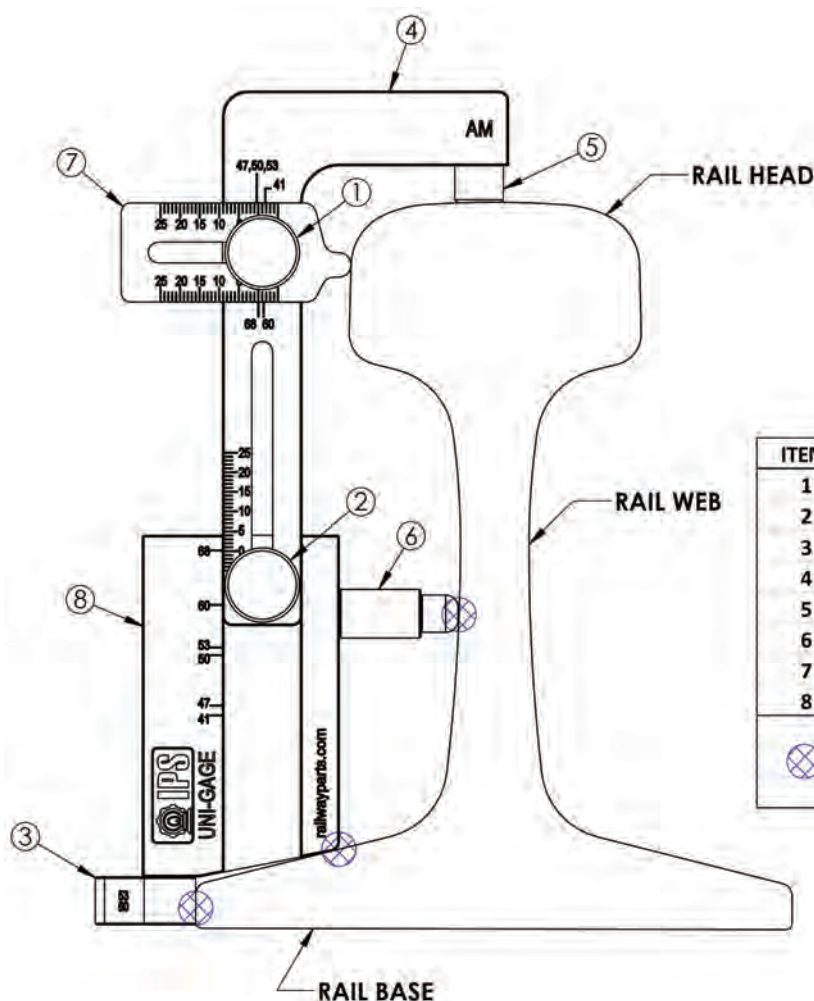

**Please Note:** For new rail without previous wear, both horizontal and vertical scales should read zero. To maximise rail wear gauge longevity and performance, rail wear gauges should be stored away in a protective case as supplied with the unit.

### FEATURES

- Leather holster with belt loop
- Manufactured from high grade aluminium and stainless steel

### SPECIFICATIONS

Model No.	Suits Rail (kg)	Unit Wt (kg)
<b>446401AUS</b>	41, 47, 50, 53, 60 & 68	1.81

ITEM	DESCRIPTION
1	UPPER ADJUSTING KNOB
2	LOWER ADJUSTING KNOB
3	ROTATING DIAL
4	HEIGHT GAUGE
5	STOP BLOCK
6	SPACER
7	FINGER
8	BODY
	These 3 points must be in contact with rail for an accurate measurement
