

TCR SERIES TRENCH CORNER ROLLERS

Hearthill's TCR series are manufactured with mild steel components to ensure a long lasting durability for heavy cable hauling. Complete with pressed sealed bearings in rollers. These units will dramatically reduce the friction and drag around all bend radiuses depending on the configuration. The TCRI-60-230 is the inverted trench corner roller which eliminates cables riding up on the standard TCR. Zinc plated finish and supporting frame features laser cut holes for bolting down.
