

BATTERY CRIMPER - 1.5T MEK-005 MICRO CRIMPING TOOL

OVERVIEW

The OPT MEK-005 is a 15 kN handheld cordless crimping multi-tool kit designed for crimping, cutting, and stripping. With an average cycle time of just 1.5 seconds, it helps save time on every operation. Weighing only 1 kg, it offers a lightweight manual alternative to traditional hand tools. The tool delivers stable output pressure for consistent, professional-quality crimps and features interchangeable crimping dies for various applications. This versatile multitool is suitable for a range of sizes and materials, including copper (CU) and aluminium (AL), and is compatible with 18V Makita® batteries.
