

HEAVY DUTY CYCLONE NETTING

For containment of equipment, materials or debris in the event of a possible storm or cyclone

DETAILS

Cyclones, storms and strong winds can cause severe damage, especially from unsecured items. Minimise the damage and danger to others and property by securing loose equipment with SSEA Cyclone netting.

FEATURES

- UV treated polyethylene construction
- 100 x 100mm square, custom sizing available
- Available in Black (best UV resistance), other colours available upon request (Green & Blue)
- Standard size 10 x 10m, custom sizing available
- In house load tested
