

6" Screwed Ram

**Description:**

The Hydralite aluminium jack is the most popular out of the Tangye hydraulic jacks as our models have the capacity to lift 20 to 100 tonnes.

The lightweight Hydralite jacks have the following features:

Versatile – different stroke options, claw lift, screwed ram or plain ram.

Low Clearance – claw models are available for lifting loads with low ground clearance.

Load Sustaining – jacks with a screwed ram and load retaining ring should be selected when loads are to be sustained for a significant time.

Easy Operation – the operating lever can be fitted in any one of the three positions in the quadrant to obtain the most suitable operating height.

Product code	PS620S		PS630S		PS660S	
Ram Capacity	20 Tonnes		30 Tonnes		60 Tonnes
