## TUH SERIES SUPERTIRFOR HYDRAULIC TIRFOR WINCH

The Tractel TUH Series Hydraulic Tirfor® machines are portable motorised hoists used with maxiflex wire rope.

TU 16 H

## FEATURES

- Can be used to lift, pull and position loads over great distances depending on the wire rope length.
- Suitable for use in numerous configurations and are the ideal solution for use in professional applications.
- Operated by a hydraulic cylinder powered by either an electrical power pack or a petrol motor power pack.

NOTE: The load capacity of the Tirfor ${ }^{\circledR}$ system can be increased by using sheave blocks.

- Multiple machines can be operated by a single operator.
- Systems can be operated at a distance.
- No operator fatigue.

## CAPACITY

By using the sheave block technique, the capacity of the Hydraulic Tirfor ${ }^{\circledR}$ can be increased by a factor of 2, 3, 4 or more.

- They can be used to lift, pull and position loads over great distances depending on the wire rope length.
- This special mechanism maintains a constant lifting or pulling capacity.

## CONFIGURATIONS

The Hydraulic Tirfor ${ }^{\circledR}$ can be used in various configurations, up to 4 hoists at the same time.

|  |  |  |  |  |  | Forward Operation (m/min) |  |  | Reverse Operation (m/ min) |  |  | Hydraulic Power Pack |  |  |  |
